Sailor Moon - Episode 71: *"No Thanks, Nurse Venus!"*

(It's a cold morning. At her home in Cherry Hill Temple, Raye is on the phone.)

Raye "Hello? Hi, Lita. How are you feeling?"

Lita "Not too bad. It sounds to me like you're real sick, though."

Raye "Yeah, I'll say. I'm burning up with a fever...and yet, I'm just freezing."

Lita "It sounds like we've all got the same thing 'cause Amy and Serena are also burning and freezing like you."

Raye "Sad. Sailor Scouts lose a battle to a teeny flu bug."

Lita "Well...maybe not all of us. Mina's still healthy, up, and around."

Raye "Mina?"

(Suddenly, the door opens.)

Mina "Yoohoo! Good morning, Raye. Just thought I'd come and see how you were."

(She DEFINITELY looks healthy...a little TOO healthy, if you ask me. She's even shaking her basket wildly...not realizing that Artemis is in there!)

Artemis "Ow! Ow!"

(Meanwhile, Lita can hear the conversation over the phone.)

Raye "Oh, Mina..."

Mina "I heard you were sick, so here I am."

(Lita hangs up.)

Lita "Huh? I guess it's Raye's turn to get 'The Treatment'."

(Lita had just gone through it herself...and boy, it left a LOT of mess!)

Lita "Mina totally annihilated my room."

(Little time passes before Raye's 'Treatment' is under way.)

Mina "Hi. Here's your soup. I hope it's hot enough this time."

Raye "This time? What does she mean?"

(Meanwhile, Artemis is with Raye, sporting a large lump on his head after being shaken all around in the basket when Mina first arrived.)

Artemis "She made soup for Amy and Lita. Amy's was like glue, and Lita's was way too cold."

Mina "So I made some mistakes, but I think trying counts. Anyway, this time, it should be just right."

(She puts the tray on Raye's bed.)

Mina "Here."

Raye "Oh. You shouldn't have."

(Mina watches like a puppy in anticipation. Raye is getting nervous.)

Raye "Hope I don't regret this."

(She slowly takes and eats a spoonful of the soup. She swallows. There is a tense moment. Then...)

Raye "YAAAHH!"

(After her initial fire-breathing reaction, Raye just sits there breathing heavily for a few seconds...then she collapses.)

Mina "Oh Raye, are you okay? Oh no!"

(Artemis jumps up and tastes the soup. As it turns out...)

Artemis "Mina...it's way too spicy!"

(Did Mina ever pass Home Economics?)

Mina "Umm...maybe eat it with ice water? I just wanna help out. Come on. Gimme a chance."

Artemis "Don't know if we can survive a chance."

(Then Raye stirs.)

Raye "Oh...Mina, I'd like to get rest now."

(Mina is more than happy to help.)

Mina "You need rest? Good idea. Just let me get this hot pot out of your way..."

(Oops. In a Serena-like bit of clumsiness, she spills the bowl of hot soup all over Raye, starting another bout of screaming. Artemis jumps off the bed and attempts to cover himself.)

Artemis "She's a disaster!"

Mina "Raye, let me make you more comfortable. I'll just...straighten out your sheets..."

(In pulling the sheets, though, she knocks Raye right off the bed!)

Artemis "Poor Raye. Try not to get too upset with the Klutzoid Queen. She means well."

Raye "She does, does she? Well, with friends like her, who needs Emerald?"

(Mina finishes making the bed.)

Mina "Okay, Raye, your bed's all ready for you. Now you can have your rest."

(Then she remembers...)

Mina "Aha!"

(Then she goes and gets an audiocassette.)

Mina "I brought this great Sounds of the Sea tape. It'll really help to relax you."

(She's now at Raye's boom box, trying to figure out how to make it work.)

Mina "Now, let's see. How does this thing-a-ma-bob work? Where's the switch? Ah...what does this do? Maybe it's this one, or...no, it's gotta be here. Hmm, uh, um... aha! Bingo...!"

(She finds the switch and turns it on. Unfortunately, her tweaking pumped the volume up to the maximum...with the radio on...tuned to a rock station. The end result: a musical blast that could wake the dead!)

Mina *(Over the loud music)*
"Hey, that doesn't sound like my sea tape!"

(So she starts fiddling with the buttons rapidly. While she does manage to turn off the radio...she does it by blowing up the boom box with her monkeying.)

Mina "Ha ha ha ha..."

(Look out Mina. From the look on Raye's face, it appears your welcome is about to run out.)

Mina "Well, it's really funny. My sea tape is still okay, but you might need to get a new tape deck, though, Raye..."

Raye *"She's trying to kill me! I know she is! Now get out!"*

(Finally, Raye lets out her loudest scream ever. Mina and Artemis see that as their cue to make tracks.)

(Mina wanders around in the city. All around her, people are wearing masks because they have the flu.)

Mina "So I made a small mess at Raye's house. I know I can be much more careful at Serena's house."

Artemis "Ow! Mina, surely you're not planning to go there now!"

Mina "Of course. Serena's whole family's down with the flu, so they really need some help. And since I'm not sick, I'm just the gal to do it, Artemis."

(You realize this recent flu epidemic's not natural in origin, do you? She stands in front of another Dark Power Wedge, which has by this point grown to a large size.)

Emerald "Ha ha ha! Ha ha! Dark Power is building up well. Very soon now, the Dark Gate will be completely opened, and I'll be able to return to Diamond. I can't wait...to show him my lovely handiwork, so it had better go as I have planned."

(Meanwhile, Serena receives a phone call.)

Serena "Huh? She trashed out your house, too? Both Amy and Lita called me just a few minutes ago...with major Mina warnings, so I'll be prepared."

Raye "Serena, you can't let her in. Just lock the doors and save yourself!"

Serena "But maybe she can help with Rini, 'cause she's still not sick..."

(Suddenly...)

Rini "AAAH!"

Serena "Rini just screamed, so I better go and check on her. I'll be careful. Bye."

(And she hangs up.)

(Rini is screaming while she's hanging from a sheet that's about to fall off the bedroom balcony.)

Rini "Mommy! Mommy!"

(Fortunately, Serena's mother grabs Rini before the sheet floats away. Serena is there at that same moment.)

Mrs. Tsukino "Oh Rini...Rini, I told you not to help me with the laundry. Go outside and play."

Rini "Huh? Oh, but I wanna help. You go ahead and rest. I'll do everything by myself, okay?"

Serena "Rini, as if you could really do the laundry. When did you become Miss Helpful?"

(Rini climbs down.)

Rini "But that's not nice to say, and talk about being useless!"

Serena "What? Me?! Who almost broke every bone in her body, not to mention losing a sheet?"

Mrs. Tsukino "Serena, I have an unbelievable headache. Could you and Rini try to keep it down?"

(And she walks back to bed.)

Serena "Mama?"

Rini "Hey, if I can't do your laundry, can I make your meals instead? Please let me do something. I wanna help. I can do lots."

Serena "Ooh...isn't there anyone I can dump Rini off on until I'm better?"

(Just then...)

Mina "There's me."

(Mina removes the bed sheet that had happened to cover her.)

Mina "Venus to the rescue."

Serena "Oh hi, Mina."

(Without warning, she jumps straight up to the balcony.)

Mina "Not only can Nurse Venus leap tall balconies in a single bound, but she can also take care of Rini and nurse your entire family back to health."

Serena "Oh. Well, from what I hear, you taking care of Rini would be a miracle enough for us."

Mina "Hup, two, three, four. Come on, Serena. March yourself back to bed."

Serena "But I..."

(She coughs.)

Mina "What are you waiting for? I'll look after everything."

(After what she heard from the others, Serena's very reluctant to acquiesce.)

Serena "But I'm okay, really. My mama's over the flu, so you don't have to worry."

Mina "No, you must be very careful, or you risk catching another cold, or even worse, you could catch pneumonia."

Rini "She's right."

(And Mina promptly herds Serena back to her bedroom.)

Serena "Ooh..."

Mina "Now get back to bed."

Serena "But..."

(Outside...)

Artemis "It wouldn't be the worse thing in the world if she happend to catch it herself."

(He sighs in frustration.)

(Soon afterward, Serena is dreaming...)

Serena "Uh...Darien, please don't leave me now..."

(...while Artemis sees to Luna, who has surprisingly gotten sick herself.)

Artemis "Are you feeling all right, Luna?"

Luna "No, I'm feeling tired, sick and gloomy, and I envy you, Artemis."

Artemis "Huh?"

Luna "You know what they say: a fool never catches a cold."

(Artemis resents the remark.)

Artemis "Luna..."

(The door opens, and Nurse Mina...now with Assistant Rini...arrive: complete in nurse's outfits.)

Rini "Ha ha ha..."

Mina "Here we are. We will nurse you back to perfect health, everyone."

(Serena is awake instantly.)

Serena "Uh..."

Mina "Hello, and how are we feeling today?"

Serena "Eh..."

Mina "Great. Rini, hand me a thermometer, would you please?"

Rini "Right."

(Even the Luna Ball is helping out.)

Rini "**LUNA-P MAGIC!**"

(The Luna Ball becomes a first aid kit. Rini pulls out the electronic thermometer.)

Serena "Huh?"

Rini "Here, Nurse Mina."

Mina "Thanks, Nurse Rini."

(Mina promptly sticks it in Serena's mouth.)

Mina "Time to take our temperature."

(She takes her clock and measures the necessary time.)

Mina "There, that should do it."

(She pulls out the thermometer and reads it. It reads 37.5 degrees Celcius. According to my calculations, that translates to...99.5 degrees Farenheit: a little higher than normal. Meanwhile, the display blinks and goes out.)

Mina "This is strange."

(She shakes the thermometer.)

Mina "Hey Rini, do you...know if this battery is okay here?"

(Then...)

Mina "Woah!"

(She had let go of the thermometer...and it had taken off like a bullet through the nearby window, sending cold air into the room.)

Mina "WAAAHH!"

(Once the room calms down again...)

Mina "Uh, well, I...made an eency, weency hole in...your window, but don't...worry. Your temperature...is not that absolutely necessary."

Rini "Uh, Mina..."

Luna "She bungles as much as Serena."

Artemis "What these eyes have seen."

(Mina covers the hole in the window by taping a sheet of paper over it.)

Mina "There. I fixed the window, so there won't be any wind. Now, Serena, I'll bet you're hungry."

(Forewarned by the others...)

Serena "Uh...no, no!"

Mina "I'm gonna make you a nice treat: maybe some hot soup or some coconut tea."

(Serena shakes her head frantically.)

Serena "Uh, uh, uh..."

Artemis "No, no, no..."

Serena *"If she makes something, I'm in trouble."*

Mina "Are you sure, Serena?"

(Then she gets another idea. Since Serena's stereo has a CD player (and since her tape is all mangled), Mina pulls out a CD.)

Mina "Ah, I'll put on some nice music for you."

(And she walks over to Serena's boom box. Artemis jumps in shock. After the fiasco at Raye's...)

Artemis "NOOOO!"

Mina "Boy, Artemis, you're such a party pooper. Nobody's giving me credit around here."

Rini "I wanna do something, too!"

Serena "Uh, no. I don't think so. Why don't you go see Mom now? Maybe she has something for you to do."

Mina "Let's go, Rini."

Rini "Okay!"

(And they leave. Once they're gone, Serena sighs in relief, but suddenly...)

Mina "AAAH!"

(It sounds like she had tumbled down the stairs.)

Serena "AH! Huh?"

(And if that weren't enough, the paper taped on the window blows off, and Serena gets blasted by cold air again.)

Serena "And they say I'm a big klutz."

(Now in the kitchen...)

Mina & Rini "Hmm..."

Mina "Okay, Rini, you all set to go? Got your apron on?"

Rini "Yeah!"

(What happens is disaster city. First, dishes keep tumbling...)

Mina & Rini "Aah! Oh no!"

(The laundry becomes a bigger mess than it originally was...)

Mina "Help!"

Rini "Wah! Too many bubbles!"

(Rini gets literally swept away by the vacuum cleaner...)

Rini "Eeeyow! Yow!"

(And Mina keeps slipping and knocking things off the furniture!)

Mina "Ow! Don't put bleach in the laundry!"

(The poor family room. Serena and her mother are beside themselves...in every sense of the phrase.)

Rini "Stop this crazy thing!"

Mina "Why don't these streaks go away?"

Rini "It's slippery! Woah! Help!"

(Serena's mother finally walks away in despair.)

Serena "Oh...what doofuses. Now I have to fix this."

(She's about to walk when...)

Serena "Oh great. This is weird. I feel kind of dizzy and light-headed. Oh..."

(She collapses.)

Mina & Rini "Oh no! Serena!"

Serena "Why am I feeling like I'm on spin-dry in Mom's washer?"

----- **Commercial Break** -----

(Later, Serena is dreaming again.)

Serena "It's so nice to finally be alone with you on your birthday, Darien. It's like a dream come true."

Darien "Serena..."

Serena "Darien..."

(Suddenly...)

Raye "It is a dream, you space-brain!"

(Somehow, the others are interfering.)

Serena & Darien "Huh?"

Amy "Why am I floating around in your dream?"

Raye "Stop this dream! You're acting like a silly locksick pup!"

Lita "Stop dreaming! I have other places to be."

Mina & Rini "Wake up and smell the ckicken soup!"

(Suddenly, Darien starts falling.)

Serena "Darien?"

Darien "Serena!"

Serena "Darien?! Oh!"

(Suddenly, the cape that remains catches fire. Soon, Serena's surrounded by a ring of flame. She's coughing...)

Serena "Hot!"

(...when suddenly she feels the splash of cold water on her face.)

(She sits up.)

Serena "Now I'm cold."

(She's back in bed.)

Serena "Huh?"

(Mina gasps. She's by the bed. So is Rini, but she's asleep.)

Serena "Oh hi, Mina."

Mina "How do you feel? I was just changing the wet cloth on your forehead. I'm so sorry I woke you up, Serena."

Serena "Have you managed to take care of Rini and me all this time by yourself, Mina?"

Mina "Yeah, but it's no big deal. Rini helped out a bit."

Serena "Hey Mina, why are you being so helpful, even though you seem so bad at it?"

Mina "Well, I know I'm bad at it, but I feel I should take care of my...friends, especially you, Princess Serena."

Serena "So you're taking care of me because I'm the Princess of the Moon?"

Mina "No, I like who you are. You're a ditz sometimes...but you make everyone around you feel like they're special. You're one of a kind, though we don't know what kind, and I just can't ignore you..when you need help."

(Then, Rini stirs and awakens.)

Rini "Is your fever gone now, Serena?"

Mina "Yes it is, and thank you for all your help assisting me, Rini. You did a very good job."

Serena "She did?"

Rini "I liked helping. It was fun. Hey Mina, do you think it's time for us to go and get that medicine for everyone now?"

Mina "Well...Serena, are you gonna be all right here all by yourself?"

Serena "Oh yeah. I feel a lot better now."

(Mina and Rini get up...)

Mina "Okay, let's go then, Rini."

Rini "Bye, Serena! Ha ha. Let's go!"

(...and leave the room.)

Serena "Amazing. They actually helped."

(Meanwhile, the hospital is quiet. Makes sense...since everyone's out cold! Gives you an idea on the location of Emerald's latest Negative Point. Sure enough, within one of the rooms, the only conscious nurse is standing in front of the Power Wedge: obviously one of the droids. Emerald, garbed in furs and glasses, appears behind her.)

Emerald "How is it, Injector?"

Injector "Well, as you can see, Emerald, Dark Power is building rapidly. It shouldn't be too much longer now."

Emerald "Hmm..."

Injector "Together with this capsule and an injection of Dark Power, we should be able to open Dark Gate with ease."

Emerald "Good, then we can get what we want and complete our mission. Ha ha ha!"

(Moments later, Mina and Rini arrive at the hospital pharmacy.)

Mina "It seems too quiet here."

Rini "Really?"

(Rini jumps right up to the counter.)

Rini "Excuse me, please. We're here to pick up some medicine for...my family. Is anyone here?"

(She then sees that the pharmacy is empty.)

Rini "I don't think there's anybody here."

(She jumps down and runs down a nearby corridor.)

Rini "Excuse me...Hey, where is everybody?!"

(In another room, Emerald (in a doctor's garb) hears Rini.)

Emerald "Wha...?!"

(She turns to Injector and proceeds to lace the capsules with Dark Power.)

Emerald "I thought you said all the children were infected with the flu. She sounds perfectly fine."

Injector "It's just a mistake."

(Then, the door opens, and Rini looks in.)

Emerald "Huh?"

Rini "Can you hear me? Hi, hi! Please answer me! I've come to pick up some medicine! Can you give me some?"

(Emerald quickly sees an opportunity.)

Emerald "Of course, my dear. I think you'd better get a flu shot yourself so you don't catch the flu that's been going around."

(Just like most young kids, Rini cringes at the sight of the hypodermic needle. This time, though, it's a good thing.)

Rini "What? A...a needle?!"

Emerald "Don't worry. It's not gonna hurt you. Besides, it's free of charge, and you can't say no to that."

(Rini takes a step back...)

Rini "Uh...no thanks."

Emerald "How dare you insult me by turning me down! You brat! Injector!"

(Emerald snaps her fingers. Injector immediately jumps and grabs Rini.)

Emerald "Hold this kid down for me!"

(But Emerald doesn't realize the kid is actually Rini, and whenever Rini is in a state of imminent danger and terror...)

Injector "What?"

(Emerald sees the Moon Beam for the first time and realizes...)

Emerald "It's...Rini! I don't believe it!"

(Mina sees the beam immediately.)

Mina "Oh no! Rini!"

(As for the other Sailor Scouts, they too sense Rini's danger.)

Girls "Rini?"

Mina "I'm coming after you right now. **VENUS STAR POWER!**"

(Mina quickly becomes Sailor Venus. Meanwhile...)

Emerald "Ha ha ha. Fancy meeting you in a place like this. What incredible luck. Injector, get her."

Injector "Right!"

(Injector resumes her real form: a droid that looks like rubber and has a scalpel for one arm and a hypodermic needle for the other. Rini gapes in terror.)

Injector "Ready?"

Sailor Venus "Not so fast!"

(Injector gasps. She hadn't expected a Sailor Scout to come so soon.)

Rini "Yay! It's Sailor Venus!"

Sailor Venus "You terrorize innocent children and spread your evil throughout the world. You are worthless trash, and it's...time to throw you out. I fight for love, and I fight for justice, too, so you better look out...for Sailor Venus. I shall punish you on behalf of Venus."

Injector "Grr..."

Emerald "You twit! I supposed you think that you've located our Dark Power here, too, do you?"

Sailor Venus "Of course."

Rini "Huh?"

Emerald "Why, you bothersome Sailor Brats! Have you also known of our plan to spread a dangerous flu virus throughout the city from this very hospital?"

Sailor Venus "Certainly. We've known it all along."

(Rini gasps.)

Rini "What's she talking about? She didn't know any of that. She's really smart, or she's just fooling us."

(But why stop Emerald from blabbing?)

Emerald "How could I have underestimated you and your annoying little pals?! Injector, beat her down!"

(Injector prepares to attack.)

(Meanwhile, Serena, though still sick, is on her way to the hospital, with Luna and Artemis with her.)

Luna "Serena, it's impossible!"

Artemis "You're still half in the bag. You should go back to bed."

(With Rini in trouble? No way!)

Serena "I think I'm okay. Rini's in danger, and I've just gotta help her."

(Raye, Amy, and Lita are struggling with the same situation: though down with the flu, they struggle to get to the hospital and help.)

Serena "I have to save her...no matter what."

(Meanwhile, Sailor Venus tries to fend off Injector.)

Sailor Venus "**VENUS CRESCENT BEAM SMASH!**"

(Injector jumps the beam and flies over Sailor Venus, who has to dodge quickly to avoid a scalpel attack.)

Sailor Venus "**VENUS LOVE CHAIN ENCIRCLE!**"

(The Venus Love Chain wraps around the scalpel, pinning Injector to the floor. Injector aims her needle arm...)

Injector "Fire One!"

(...and fires. Sailor Venus jumps over the shot. But in the process, Injector frees herself and catches her as she lands.)

Injector "Fire Two!"

(A series of needles pins Sailor Venus to the wall.)

Sailor Venus "Not good."

Injector "Ha ha ha!"

Emerald "Ha ha ha! Game's over now, love child. Injector, stick the kid first."

(Injector turns to Rini.)

Injector "Fire Three!"

(But Rini's already running for it.)

Rini "I hate needles!"

(She falls down. The needle's coming fast!)

----- **Commercial Break** -----

Injector "Fire Three!"

(But Rini's already running for it.)

Rini "I hate needles!"

(She falls down. The needle's coming fast! Just then, something stops the needle. Everyone turns.)

Rini "Huh?"

(It had been one of Tuxedo Mask's roses that had stopped the shot. Emerald gasps. Tuxedo Mask himself is right in front of Rini.)

Tuxedo Mask "A hospital is a shelter for people who are ill and need help. You abused its nurturing purposes to assist you in your evil ways instead."

(Rini smiles.)

Sailor Venus "Way to go, Tuxedo Mask!"

Emerald "Why you! Oh, it's Mr. Nice Guy. Ugh! Injector, quit standing around! Stick it to him all good!"

(Injector fires a needle at Tuxedo Mask...)

Sailor Jupiter "**JUPITER THUNDERCLAP ZAP!**"

(...but Sailor Jupiter's prompt arrival allows her to intercept. Injector gasps in surprise.)

Sailor Mercury "**MERCURY BUBBLES BLAST!**"

(And Sailor Mercury creates a fog bank...)

Emerald "What's happening?!"

(...allowing the other Sailor Scouts to surround Emerald.)

Sailor Mars "You made us all really sick, you slimy, wicked old troll!"

Sailor Jupiter "And now, you must accept your reward!"

Sailor Venus "How are they all able to do this?! You should still be in bed!"

Sailor Moon "We're a while lot better now, Venus."

Sailor Mars "Yeah, thanks to your efforts, pathetic as they were."

Sailor Mercury "We do appreciate all your efforts and good cheer."

Sailor Jupiter "Yeah, thanks a lot, Sailor Venus."

Sailor Venus "Thanks, guys."

(Emerald is getting ticked.)

Emerald "Now I'm ill! Injector, finish them off!"

(She jumps over the encirclement.)

Sailor Mercury "Hey, let's discard this gross medical waste product. You with me, girl?"

(Sailor Mars is happy to oblige.)

Sailor Mars "**MARS CELESTIAL FIRE SURROUND!**"

(And while Injector deals with the Celestial Fire...)

Sailor Mercury "Go, Sailor Moon!"

(There's a problem, though. Sailor Moon is losing her strength again. She falls to her knees.)

Sailor Mars "What's wrong?"

Sailor Mercury "Sailor Moon!"

Sailor Moon "I'm sorry. I thought my fever was gone, but I guess it's still here."

Sailor Mars "Hey, don't worry."

Sailor Moon "Okay."

Tuxedo Mask "Cheer up, Sailor Moon."

(They all turn. Rini is now safe in Tuxedo Mask's arms.)

Tuxedo Mask. "I strongly believe in you, Sailor Moon, and I have a special place for you in my heart."

Sailor Moon "Oh, way cool."
"Thanks for your confidence, Tuxedo Mask."

(The vote of confidence was just what she needed. She picks herself up and summons the Moon Scepter.)

Sailor Moon "**MOON SCEPTER ACTIVATION!**"

(She fires and scores. Injector is dust.)

Sailor Jupiter "All right!"

Sailor Mercury "Way to go, Sailor Moon!"

Sailor Mars "You stuck her!"

Sailor Venus "Excuse me."

Sailor Scouts "Huh?"

(It seems Sailor Venus is still stuck to the wall.)

Sailor Venus "I hate to break up the nice 'Aren't we the best?' session, but...GET ME OFF O' HERE!"

Sailor Moon "Oops. Sorry, Mina. We kinda forgot. Ha ha."

Sailor Venus "Well, some things never change! GET ME DOWN!"

(With Injector goes the Power Wedge. For the third time, Emerald has been foiled.)

Emerald "Oh...drat! I was so close to ending this! I'll avenge those lousy thorns in my side yet!
Grr!"

(And she vanishes with hatred on her face.)

(The flu passes very quickly with Injector gone. By the next day, everyone feels well again...)

Artemis "So all of the people got rid of the flu, and the city was restored to its normal hustle and bustle...except for us poor sickies."

(What a twist of fate! Now Mina and Artemis have colds!)

Mina "Oh, be quiet, Artemis, please. This is a real cold, isn't it, Artemis?"

Artemis "Yeah. It's gotta be."

(Luna arrives to check on Artemis.)

Luna "But you should feel happy. Since you caught a cold, it means you're no longer a fool, huh? Happy now?"

Artemis "Oh yeah. How can you be so blind? I'm sick."

(She isn't. She brought help...)

Serena "Hi. Your nurses are here."

(And here comes the kicker. It looks like Mina's about to get a dose of her own medicine, courtesy of Serena and Rini.)

Luna & Artemis "Huh?"

Serena "Ha ha! Please try this wonderful dish especially for you."

Mina "Oh, thank you."

(Mina tries it. The reaction is instant.)

Serena "Well, what do you think? Isn't it too delish?"

Mina "Uh...yeah."

(And she swallows a second spoonful...reluctantly.)

Mina "Mm mmm."

Serena "Ho hoo! Great! She likes it! I'm so good!"

(Then Rini appears with the thermometer.)

Rini "Time to test your temperature now."

(Serena snatches the thermometer.)

Serena "Not now, Rini. She's eating, and it's my great food."

Rini "I'm helping!"

Serena "Not now!"

(Here we go again!)

Rini "Why, you're just a big bully!"

Serena "What are you trying to do?!"

Mina "I guess the old saying's very true: What goes around, comes around."

(Artemis sighs.)

Mina "Please, just leave me alone!"
